DETAILED ACTION

1. Claims 1-14 are pending.

Drawings

2. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the subject matter claimed must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as “amended.” If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled “Replacement Sheet” in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, line 1, "To establish" is improper claim syntax and not clear.

Claim 1, line 1, "the Bar" lacks antecedent basis and is not clear.

Claim 1, lines 1-2, the capital letters associated with the various words is improper.

Claim 1, lines 4-5, "communication services inventory services" is not clear.

Claims 2-11, line 1, the terms "That the" is improper claim syntax and is not clear as to their meaning.

Claims 2-11, and 14, line 1, the term "the BRSVPM" lacks antecedent basis, is improper claim syntax and is not clear as to its meaning. These claims are independent claims and do not reference claim 1.

Claim 2, line 1, "the core" and "the only editing-input" lacks antecedent basis and is not clear. Similar corrections need to be made to the remaining claims.

Claims 12 and 13 are not clear.

Applicant is advised to review the claims and correct the numerous deficiencies contained therein. As is, it is extremely difficult to ascertain Applicant's inventive concept.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1-3, as understood, are rejected under 35 U.S.C. 102(b) as being anticipated by Balderamma et al., US 5,806,071. Balderamma discloses, e.g. Fig. 1, a private network and Internet network that provides ordering services.

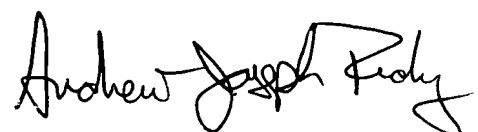

7. Further pertinent references of interest are noted on the attached PTO-892.
